

Dear Mr Stabel,

I'm a student of this school from 4 years.

Every year I really enjoyed day by day, I had fun and worked hard with my class and teacher and I had the possibility to dance on stage and to take part of a lot of galas all over the world.

This year was really hard for me, because of the death in my family and my teacher and the school helped me a lot. They did the best for me and I will never forget it!

I discover here a big family and I am thankful each day more to be part of this school!

Wit best regards,

Renata Parisi
